Dragon Dictate and  
Dragon Search  
Free

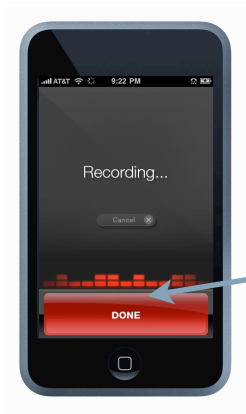

## Dragon Dictate

1. Tap the Record button (the red dot) to start recording.

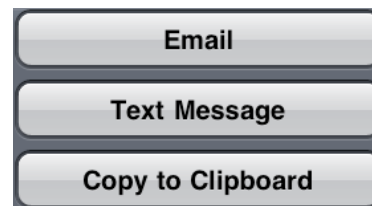

2. Start speaking and tap on Done when you're finished.

3. Your spoken text will appear at the top of the screen. Tap the keyboard icon to open a keyboard if you need to edit the text.

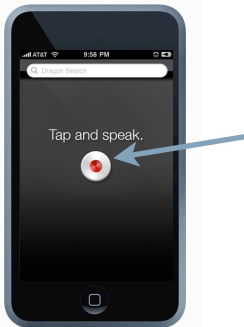

4. Tap the "Action" button and choose from one of these options:

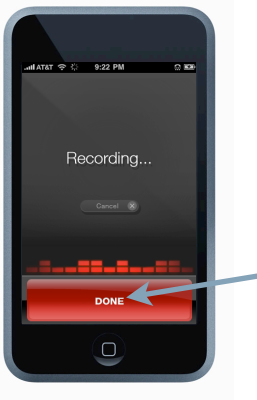

- Email: will open the Mail app and insert the spoken text as the subject of a new message.
- Text Message: will open the Messages application. To insert the spoken text into a new message, double-tap in the message body and choose Paste.
- Copy to Clipboard: copies the text into memory. You can open another application such as Notes and double-tap to Paste.

## Dragon Search

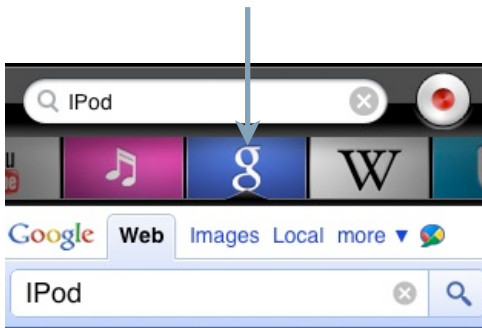

1. Tap the Record button (the red dot) and start speaking your search term(s).

2. When you're finished recording, tap on Done.

3. To change the type of search, flick with one finger to either side in the area with the icons at the top of the screen.

4. Tap in the search field to bring up the keyboard if you need to edit your search terms. Tapping the X will clear your search.

5. To start over, tap the Record button to the right of the search field.
